STATEMENT OF SUBSTANCE OF  
INTERVIEW  
Examining Group 1654  
Patent Application  
Docket No. UF-266X  
Serial No. 10/067,495

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Examiner : Jennifer I. Harle  
Art Unit : 1654  
Applicants : Horenstein, Sun  
Serial No. : 10/067,495  
Filed : February 4, 2002  
Confirm. No. : 7011  
For : Inhibitors of Glycosyltransferase Enzymes

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

STATEMENT OF SUBSTANCE OF INTERVIEW

The undersigned and Examiner Jennifer I. Harle conducted a telephonic interview on March 15, 2005 regarding the above-referenced patent application. The applicants wish to thank Examiner Harle for the courtesy of the interview. The remarks set forth herein are consistent with the substance of the interview, constitute a summary of that interview, and are believed to address the outstanding issues as discussed during the interview.

We discussed the use of bond-line notation in the structures claimed in the compound, composition, and method claims. The applicants asserted that, for example, a skilled artisan would understand that the appropriate number of hydrogens would attach to the carbon where Z = C to complete

the valence when bond-line notation is used. Examiner Harle agreed to take the applicants' assertion and use of bond-line notation into further consideration.

The Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 or 1.17 as required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,

*Jenna M. Morrison*
